# Meet our Mentors

“ For Me Python is the SALT of technology. It's like a rising SUN which spreads light and keeps rising with no horizon. Python can outperform all other languages. It allow users to easily switch Domains & it's important for both Hardware and Software.”

He is the founder & CEO of TechieNest Pvt Ltd. He has a rich experience of 10 years in training, Research and Development. He has trained more than 50000 students across the Country and developed Dozen of products and headed more than 100 Projects on various Technologies .

“ Python is Human friendly programming language so it has become my ultimate FRIEND. It's the most DYNAMIC language I come across, because whenever I Dig thousand feet into it, I always feel the POWER.”

He is a Corporate trainer with 10+ years of experience. He is a professionally experienced DevOps Engineer who also has exceptionally amazing teaching skills . He is an expert in overall range of technical Domains .

# Learner Testimonials

Amazing platform for learning new technologies. I loved their teaching method which comprised of both recorded sessions as well as direct guidance from the mentor. Thanks to LnB for this wholesome experience.

**Ayush Jain**  
Company Designation here

Learnt Data Science with so much ease. The best part about the whole course was the endless qualitative assignments that made me confident on the topic. Special thanks to Learn and Build for this amazing course.

**Arpit Singhal**  
Company Designation here

They made the course so easy, even coming from a non-tech background I could successfully finish my first step towards being a Business Analyst. Thanks a lot to the team, would recommend it to all.

**Yashi Saxena**  
Company Designation here

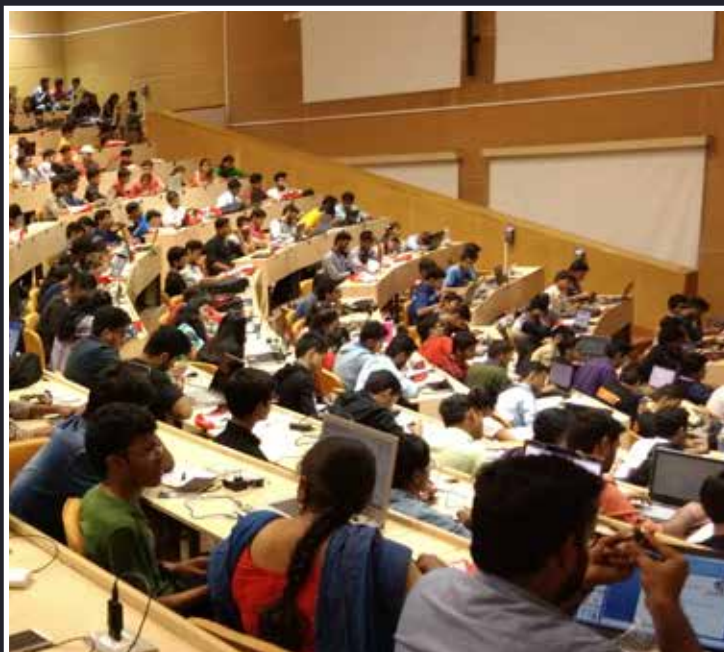

Made my first project on Artificial Intelligence that helped me with my placements a lot. I could crack my dream company just because of all the practice questions provided by the team. Forever thankful to LnB.
